## EDUCATION

**University of Ottawa, Ottawa, ON**  
**B.Eng. Software Engineering**

2016 - 2021

## PROJECTS

### Onboarding— clinic registration

Developed a multi-step clinic registration form using React (front-end) and CakePHP (back-end). This project enhanced user experience and streamlined the clinic onboarding process.

### Tabat— E-Commerce Web Application

Developed a MERN Stack based e-commerce web application for soccer jerseys, employing Tailwind CSS for styling, Redux for efficient state management, JWT for secure authorization, and Stripe for reliable payment processing
